

## PHY 180H1F *Mechanics*

**Syllabus:** Chapters 1-13 and 15 of text.

### **Assignments:**

- Weekly assignments are posted on the website on Mondays.
- Assignment solutions should be put in the box\* with your tutorial leader's name on it by 5 PM the following Monday. Solutions will be posted on the home page at that time.  
*\*The boxes are located behind the stairs on the basement level.*
- Late assignments will not be accepted. Since the best 7 of 9 assignments is used in arriving at your problem set mark, if you miss one or two assignment for **any** reason you will not suffer a penalty.
- Tutorials will not be used for solving assignment problems, however hints may be given there for some problems.
- Discussion is often beneficial for understanding how to start solving a problem, but copying a solution (in whole or in part) from another student is plagiarism and is subject to a severe sanction.
- About three problems from an assignment will be marked. You won't know beforehand which ones.

### **Grading Scheme:**

Problem sets (best 7 of 9)	15%
Two term tests	40%
Final Exam (2.5 hours, Type A)	45%

### **Test Schedule:**

- Term test #1: Thursday, October 11.
- Term test #2: Thursday, November 8.
